

Dashboard Summary

Project Title:-

Sales Dashboard Using Microsoft Excel

Dataset:

The Dataset used in this project is the **Superstore Sales Dataset** from **Kaggle**, created by **Rohit Sahoo**. This dataset was used only for learning and practise purposes. It is not real-time business data.

Project Objective:

The objective of this project is to create an interactive sales dashboard using Microsoft Excel to analyze sales performance and present business insights through charts, KPI's, and filters.

Tools & Features Used:

- Microsoft Excel 2024
- Pivot Tables
- Pivot Charts
- KPI's
- Slicers
- Timeline

Key Performance Indicators(KPI's):

- Total Orders
- Total Sales
- Average Sales
- Total Customers

Dashboard Visualizations:

- Distribution of Total Sales By Category(Treemap)
- Top 10 Customers(Bar Chart)
- Sales By Region(Pie chart)
- Distribution of Total Sales by Ship Mode(Column Chart)
- Top 5 Products(Bar Chart).

Interactive Filters:

- Year Timeline
- Region
- Category
- Segment
- Ship Mode

Conclusion:

This Dashboard provides an interactive view of sales data and helps users analyze sales performance using KPI's, Charts, and filters. It was created as a practise project to improve Excel data analysis and dashboard development skills.
